Our Wonderful 'New' School Pond

Our school pond has now been transformed into a beautiful outdoor learning space thanks to the incredible support of our school community. This exciting project was made possible through funds raised by our children and the amazing PTFA, whose generosity helped bring this vision to life. We would like to say a special thank you to Mr Wilson, owner of Wilson Landscaping and father to Rocco and Fifi, for his time, expertise and hard work throughout the project. We are also extremely grateful to MSB Building Supplies (Herne Bay) for generously donating the timber, and to Jel and Sons for providing the metal fencing free of charge. Your kindness and support have created a wonderful space for our children to learn, explore and enjoy nature for years to come.

Our 'Stay and Play' Afternoon

A huge thank-you to all the parents and carers who attended our 'Stay and Play' session. The children had a wonderful afternoon, and we were delighted to show off our new pond area. We were especially lucky that the sun was shining, making it a perfect afternoon to play and learn together outdoors. A special thank-you also goes to Mrs Garrett for capturing these wonderful photographs of the children having so much fun and making such happy memories.

Wet Weather Clothing

All children will be sent home with their wet weather clothing (wellington boots, puddle suits and waterproofs) on the last day of term – Tuesday 21st July.

Please can we ask that these are returned during the first week back of school (September 2026).

SAVE THE DATE

Saturday 19th September 2026

9:00am-12:00pm

We need your help to clear the large amount of 'stuff' that has accumulated in the corner of our car park. If you can spare an hour, we would be very grateful for your help dismantling and breaking up the items we no longer need for the skip.

We still need your help...

We are in desperate need of large loose parts to provide the children with more den-building equipment. If you have or know of anyone who can provide large plastic tubing, tarpaulins, wooden stumps, or thick rope, please get in touch.
