

Rohi has found all of the different equations for these numbers. However, he has made some mistakes.

Can you find them and correct them for him?

$15 + 4 = 19$	$19 - 4 = 15$
$19 + 15 = 4$	$19 - 5 = 4$
$19 = 15 + 4$	$4 = 19 - 15$
$19 = 4 + 15$	$19 = 15 - 4$
