

## Activity 2

Barney is desperate to get those hairs off his face and arm. He looks around on the Internet and comes across an advertisement to buy a hair removal product.

Write an advert for a hair removal product.

- . Exaggerate the effects of your product.
- . Use strong adjectives and adverbs to describe the product and its effects.
- . Can you include a slogan?
- . Will pictures be helpful?

You can either produce an advert that is a video or a written text or like a television ad combining an actor talking with diagrams and explanations.

Have fun with this one!
