

Task: Find out a bit more about Matt Haig and compile a fact file.

Here are some of the activities you could do or the things you could include in the fact file.

- . a mini biography of Matt Haig
- . other book titles he has written
- . a book report about a book by Matt Haig you have read
- . illustrations from some of his books

Read up about books by Matt Haig and sort them into categories and give a reason why:

Would like to read	Would not like to read	Not sure
--------------------	------------------------	----------

Below are some links to help you with this task.

I'm happy for you not to do the fact file if you have run out of steam a bit. But do read about Matt Haig and have a look at the book titles and a few blurbs for these books.

He is a very interesting writer and two of my favourite (English) children's books were written by him. Can you guess which ones though?
